# Universal File Server UB64

Cross-platform Server for Mac, Windows, Web & Mobile Users

HELIOS

HELIOS Universal File Server UB64 is a turnkey software solution for all major server platforms, to provide file and print server services to Mac and Windows users, and Internet portal file access to web and mobile device users.

Cross-Platform Networking integration enables different network client platforms to share the same server volumes, and offers compatibility and performance advantages of all client protocols.

HELIOS integration includes cross-platform support for file and record locking, user names, group names, user authentication, file system permissions, volume access permissions, file labels and comments. This simplifies deployment of multiple protocol networks.

Synchronization Services allow regular folder/volume data copies to a second disk, volume or NFS storage. Client file and folder synchronization between the company server and remote user workstations and mobile devices is provided with enterprise grade security.

Spotlight Compatible Search enables Mac, Windows, web, and mobile users to search for server files by name, text content, and metadata in seconds, even in very large volumes.

Uniform Server Administration via HELIOS Admin allows Windows, Mac, and UNIX users to manage remotely all server settings (users, volumes, printers, settings, logs, etc.).

HELIOS IT Monitor Server adds IT infrastructure monitoring with push notification to admins upon server overload or service failure.

Unbreakable Server Solutions with cross-platform networking is exclusivly provided by HELIOS Software with the HELIOS Universal File Server. It scales well from small sites with only a few clients to enterprise sites with the most demanding requirements, and always remains easy to administer.

Features & Benefits

Ease of Use
- Easy to install, administer, use
- Remote server administration from Mac, Windows, and UNIX

Included Products
- HELIOS Base UB64
- EtherShare UB64
- PCShare UB64 (not on Windows)
- WebShare UB64
- WebShare Manager UB64
- iPad Document Hub
- IT Monitor Server UB64

Cross-Platform Client Support
- Mac, Windows, web, iOS
- Common shared volumes
- Web portal for collaboration
- UTF-8 based file names with meta data and file streams support
- Authentication services for local users, LDAP, AD/PDC, and NIS
- Advanced printing system

System Requirements
- Works on all major server platforms
- See the respective data sheets

Smart Ideas for Better Networking.
